

TILED FULL-SCALE TEMPLATE - ASSEMBLY INDEX

Cardboard Layout REV1 backup_9.9_15.dxf

Grid overlay: each cell is one printed sheet. Dashed outline = model extents.

CALIBRATION: measure this square before the full run.

1.000 in
SQUARE

1.000 in

1.000 in

Model size: 48.000 x 48.000 in
Grid: 6 cols (A-F) x 5 rows (1-5)
Tile pages: 30 (plus this index page = 31 total)
Units: \$INSUNITS=1 (inches)
Partial: 10 of 30 pages are partial
 last column F kept at 5.500 in wide
 last row 5 kept at 4.000 in tall
Order: A1 is bottom-left. Row 1 is the BOTTOM row.

PRINT AT 100% / ACTUAL SIZE

Do NOT use 'Fit to Page'.

Do NOT use 'Shrink to Printable Area' or 'Scale to Fit'.

Do NOT use borderless mode. It enlarges the image 2 to 5 percent and destroys 1:1 scale.

Set page size to Letter 8.5 x 11 in, portrait.

Verify the 1.000 in calibration square above with a ruler before printing the remaining pages.

Sheets butt edge to edge. Do not overlap and do not trim, except along the dashed CUT lines on the last column and last row.

Assemble bottom row first: A1, B1, C1 ... then A2, B2, C2 ...
